

# MINNE EXISTS IN INTERIOR OF MEXICO; UNITED STATES MAY HAVE TO PREVENT HORROR

Vera Cruz, May 6.—Refugee report famine conditions exist in the interior. A thousand families are starving to death. The United States will probably have to come to the rescue of the country to prevent the situation becoming unspeakable horror.

That Huerta is preparing to flee to Central America is the report brought here by A. A. Welmer, owner of a national bank in Mexico. He says Huerta is unable to procure the money to pay his soldiers and they are turning against him.

General Funston is pushing the American lines closer to General Nemes Mexicans.

The first prisoner to be tried by Americans next week will be Julia Montell, a comely Mexican girl who admits "sniping" an American in revenge for the killing of her brother.

Washington, May 7.—Unless word is received from John R. Sullivan, American consul at Saltillo, who recently disappeared, ultimatum will be sent to Huerta to produce him or American troops will be rushed to the rescue according to reports here.

Continued preparations for extensive hostilities by the army may lead to the belief that a fresh Mexican crisis is approaching. Owing to sweeping victories of the constitutionalists, mediators rested in peace efforts today. It is believed Huerta will be whipped or bottled up before mediation gets under way.

Admiral Badger reported a company of marines from Tampico arrived this morning, landed to reinforce General Funston.

O'Shaughnessy arrived this morning. After a few hours rest he went to the state department. After a short conference with Secretary Bryan, the Secretary hurried to the White House. Said he wanted to see the President before talking too much with O'Shaughnessy.

Chihuahua, Mex., May 7.—Sunday is set for a general assault on Saltillo.

# DISARM MINE GUARDS IN STRIKE REGION

Denver, Colo., May 7.—Disarming mine guards by federal troops in strike district began this morning when the Rocky Mountain Fuel Company turned over forty modern rifles and a machine gun to the soldiers. Sixty strikers also surrendered arms.

After disarmament guards and strikers and all county officers and policemen were ordered to surrender weapons. This will leave the United States troops the only armed men in this region.

## MR. HALL, BURIED

The funeral of Mr. W. R. Hall was held this morning at the home of E. C. Hall on North Allen street at 1:30. Rev. E. H. Jennings, pastor of the First Baptist church conducted the ceremony.

A quartette composed of Mrs. Eric Gollerstedt, Mrs. R. D. Blackshear, Mr. O. H. Morgan and Mr. H. L. Gaines sang "Abide With Me" and "How Firm a Foundation." The pall bearers were O. H. Morgan, A. B. Carroll, W. W. Whiddon, A. V. Malone, R. L. Gaines and T. W. Harris. Interment was made in the city cemetery. There were many beautiful floral tributes sent by friends of the deceased.

# 202 TRUE BILLS AFTER VIEWS OF GOOD ROADS ARE RETURNED

Grand Jury Recommends Calling of Election to Vote on Bond Issue for Public Roads.

Recommending that the commissioners court take steps to hold an election for the purpose of issuing bonds to build public roads, and that the county jail be repaired so that prisoners can be safely kept there, the grand jury, which has been in session ten days, made its final report to the court this afternoon showing that 202 true bills were returned.

The report shows that 160 cases were investigated, resulting in the finding of 202 true bills, 22 of which were for felonies and 178 for misdemeanors. The report said that the grand jury was glad to note that there was not such a great number of felons.

The grand jury investigated the jail, found the prisoners well cared for, the books of the county officers neatly and correctly kept, insofar as could be learned, said the report. The jury recommended that some sanitary repairs be done in the court house.

The jury found that there was \$1162.62 in the general fund of the county treasurer, and \$128.25 in the fine and forfeiture fund.

That some repairs be done at the poor house, was recommended by the grand jury. The inmates were well cared for.

The jury was unable to determine the condition of the public line as but few of the apportioners reported to the jury, says the final report, which was signed by

# COMER TO BE NOMINATED BY 3,664 VOTES ACCORDING TO AGE-HERALD'S FORECAST TODAY

## Heavy Hail Today; Negro Child Hurt

The heat and dryness of the past few weeks was broken this afternoon by a heavy hail, rain and wind storm which did damage in Dothan and this section, but insofar as is known the loss is small.

Lightning struck the house of Mr. and Mrs. J. K. H. Merkle in Westover, just above the dining room door, and while the damage to the building is thought to be very slight, the family were frightened. The same house was struck by lightning about a year ago.

A negro church in North Highlands, where a school was being taught, was partially destroyed, the building being lifted from the pillars. It is said that about fifteen children were in the house, only one, the child of Mary Blake, being seriously injured. The rest were not hurt, insofar as could be learned.

Annie Drake, colored, age about 16, is seriously and probably fatally injured as the result of being struck by a portion of the falling steeple from the negro church in North Highlands. When Mary Rose, the teacher, and her other pupils made a break for the door, all escaped except the Drake girl. It is said she can only move her hands.

The theory is that when the alarm was spread, the teacher and pupils made a break for liberty, the Drake girl, who was among the last, being caught beneath the crumbling steeple. One side of the house was lifted from the pillars and the steeple was blown down.

It is feared that the storm damaged young corn and cotton in this section, to say nothing of gardens where vegetables were beginning to grow. The hail, in some places, was heavy and the wind was strong, but whether permanent damage to tender vegetable plants of the various varieties will result, cannot be ascertained.

Birmingham, Ala., May 7.—The Age-Herald prints forecast based on reports from 7500 correspondents. Shows that Comer will be nominated by 3,664 votes. Osborn county's estimated vote is 1,819. Comer will get 1,833; Henderson, 607; Henry county, 1490; Comer, 787; Henderson, 652; Houston county, 2,880; Comer, 1,110; Henderson, 1,650.

## Examination For Clerk-Carriers

Examinations for Clerk-Carriers in the postoffice will be held at the federal building in Dothan May 21, and while there are no applications in now, it is expected that a number will procure the application blanks and decide to take the examination.

Application blanks for the United States Civil Service Examination in the department may be obtained by calling at the local postoffice according to Clerk Floyd McCarty.

George C. Rowden, who has been rural school director, Houston county this year, and who has made marked success of that work, was here today enroute to Chicago, where he will accept a position with the bookkeeping department of a large lyeum bureau, traveling the northern states this summer in the interest of the lyeum work. Mr. Rowden was reared a few miles below Troy and spent several years here. He is a graduate of the college. —Troy Messenger.

## JOHN OLIVER ARRESTED

John Oliver, and Dr. J. H. Long, aged young corn and cotton in this section, to say nothing of gardens where vegetables were beginning to grow. The hail, in some places, was heavy and the wind was strong, but whether permanent damage to tender vegetable plants of the various varieties will result, cannot be ascertained.

# COMMUNICATION

It is gratifying to know that the efforts being put forth to beat "Old Comer" are having but little effect upon the average voter.

The railroad attorneys are "tooting 'em up" for the Trojan, but amongst the farmers, but the farmers know that Mr. Comer proved himself to be the best friend they have ever elected governor; that when he went into office, there were counties in Alabama that did not have a painted school house in the rural districts; that scarcely any of them were worth a coat of paint; that now nearly every rural community has a painted modern school house for these isolated people, an honor bright to their community, and a monument to "Old Comer."

Should the Trojan be elected, which is hardly probable, and the work of cutting needless appropriations begins with the appropriation of \$1,000 for each county per year for building rural school houses be withdrawn? They do not produce that it will not. Will the \$350,000 annual appropriation, an additional sum from the General Fund which was added to the common school fund during Comer's administration be called in? They have not said a word on this subject!

We have followed the advice of railroad lawyers and paid politicians long enough. Just as long as we followed their advice we ate dirt and just as long as the farmers are led by them, just that long they may

expect to continue the diet. Nor is this all for doubtless you can name some of those who are now trying to vote, who will be ashamed of you the first time your son burnt form comes into contact with their "classical beauty."

Real politicians and the "near" class, have always had more use for the farmer, the men hailed as the salt of the earth, in a political campaign than at any other time. The farmers left their plows and loved are their homes as movable as the tents of Abraham!

"Let us cease this agitation" they cry. Yes, say we, for the Almighty himself must be disgusted. But what is agitation and what is an agitator? In this campaign, the agitator is the man who is trying to get the farmer to vote against H. H. Comer, the great civic hero, who has done more already for the farmers and those near and dear to him than any other man Alabama ever produced, and agitation? What is a suitable definition? Any way, the new York gentlemen wanted agitation.

John, New York gentlemen wanted agitation. George the Third wanted it stopped; the Royal Governors all wanted it stopped; Huerta, the murderous Indian; Villa, the malevolent; and Carranza, the wolf in sheep's clothing all want to see this "agitation" business stopped! And we believe the people will stop it next Monday, and not allow Alabama to be made a promissory note by them.

## "Old Comer" Says:

"I will urge the abolition of the County Back Tax Commission, retention of the 60 per cent. tax valuation, and will insist upon rigid economy in the administration of the affairs of the State.

"If elected, I will urge the appropriation of a sufficient amount to educate our farmers, and especially the boys, in the use of intensive methods in farming.

I will insist upon the largest possible appropriation for the common schools of the country, so as to give the country children a full nine months' term with comfortable houses in which to be taught.

"I give liberal appropriation for pensions to Confederate soldiers.

"I appeal to you to join with me and assist me in the great work of removing our Capitol from Louisville, Ky. back to Montgomery."

"H. H. COMER."

And "Old Comer" will do what he says. "Old Comer's" administration was over \$2,500 a day more economical than O'Neal's. O'Neal is against Comer.

## THAT OLD "INCREASED TAXATION" DODGE

There is one statement put out by the anti-Comer people that is so easily defeated as the "increased taxation" dodge.

That is a slogan designed to catch votes. It is something that affects many people—nearly all of the voters, and is handled in a way to make the people believe that Comer did it.

The fact of the business is, the provide for more taxes were passed before Comer went in. He had nothing to do with the back tax, commissions. They were created five years before Comer became governor.

Now then. When the man tells you that his taxes are twice as much as they were before. Comer was elected governor. Just make him an offer on his property. See if he will take twice as much for it as it was worth before Comer was governor. If he will, buy it. It is a bargain.

The tax rate hasn't been increased, as is well known. Then what has made your taxes more? Only one thing: You are worth more. You have more property to pay tax on.

Every single man who is paying twice the taxes he did ten years ago, or six years ago, is worth from two to three times as much as he was then. It is true, his property may be the same farm he owned ten years ago, and which was worth then \$5 an acre, and given in at \$5. Now it is probably worth \$20 to \$25, and is assessed for a fourth of its value.

We challenge any man in the State of Alabama, who is paying as much again taxes as he did before Comer was elected, to offer his stuff for sale at the rate that the taxation represents.

Comer has done nothing toward increasing rates. He has done nothing to raise valuations. Valuations have increased because there are more people wanting to own this same property. The property is worth more, because it will bring more to the owner. That is all. Comer had no more to do with that than he does regulating the course of the stars.

Comer does believe in making corporations pay their just share of the burdens, just like the farmers have to pay.

Old Abe Lincoln, among other things said: "I like to see a man who is proud of the place in which he lives. I like to see a man live so that his place will be proud of him. Be honest, but hate no one; correct a man's wrongdoings, but do not overtake him, unless it must be done to overthrow the wrong; stand with anybody that stands with you, and with him while he is right, but part with him when he is wrong."

## BORNE EYES CAUSED BY FACE POWDER

Face powder has its dangers the same as gun powder. For several years occasional cases have come under the observation of oculists in which the patients, invariably women, complain of vision being blurred, in ability to use the eyes for any length of time and severe itching of the lids. The slightest rubbing of the lids produces a marked redness of the eyes and only aggravates the itching. In severe cases the lids are frequently swollen from constant rubbing. There is a sticky, elastic secretion which, when being removed, pulls out in long strings. Microscopic examination of the secretion reveals masses of what appear to be crystals. Until recently no satisfactory explanation of the presence of these crystals in the eye has been given.

Secretion taken from the eyes of two sisters suffering from this peculiar complaint were submitted to the professor of pathology of one of the university medical schools, who found that the crystals came from rice face powder. Seven other patients in which the same symptoms and microscopic conditions were found all used the same make of face powder. When the powder is applied to the face with a puff a portion of the fine dust is driven upward and lodges on the moist eyeball. The rice powder in the presence of the tears then becomes minuscule in character and is not washed from under the eyelids. The powder produces the irritation, which is aggravated by rubbing. Those who use a chamomile-skin in applying the powder are less liable to cause the fine dust to arise, which probably accounts for the condition not being found in every woman using face powder. The condition is quickly relieved by flushing the eye with boric acid solution. The irritation rapidly disappears when the eyes are kept washed out with soothing eye-wash.

Who was it that said Hearst owned a lot of property in Mexico, which probably accounts for the criticism he has been heaping upon Wilson's administration for not taking hold down there sooner.

It doesn't matter if we have been busy in politics, there is no reason why we shouldn't get busy and clean up this town, in a sanitary way, of course.

We could stand the grand opera people if they wear United States clothes, and enough of them. Dothan will never be a competitor with Atlanta.

The Astor fortune has totalled up just a little above \$24,000,000 and the son is having no trouble in finding a girl to be his bride.

You can never tell what a man's political aspirations are till something comes along and gives the proper setting.

Ring politicians; reactionaries—they stand together.

## HOWE'S SAYINGS

A great deal is expected of mayors of cities, and they are always disappointing. A mayor is like a lecturer: there never was a satisfactory one.

No gentleman has a right to a foolish opinion.

Corruption and inefficiency are particularly noted in cities; we do not notice national extravagance so much because it is spread over a large territory. Close analysis would probably show that Boss Tweed was no worse than some of our modern

statesmen who have the nerve to demand the love and gratitude of the people; that Tammany at its worst is no worse than the average national administration.

"Try to be as much of an optimist as a pessimist can be."—Extract from a letter from a smart subscriber.

Chicago appropriated \$25,000 for a municipal store where the people might buy food supplies at cost. The \$25,000 appropriation was expended, but the Municipal store did no good; its sales were less than \$7.50 per day. Here was a great need the politicians talked about, and wasted \$25,000 in an attempt to bring about, which was not a need at all. The postmaster general has a scheme to eliminate the middleman, and enable consumers to buy direct of the producers, by means of the parcels post. The idea is an absurdity, but the postmaster general will manage to waste a good deal of money on it. In a thousand other things we have the expense of reform, but no reform.

The politicians are a screaming farce, but don't forget that they are also dangerous; they are active, while you are indifferent. If not apologetic. If you are not a candidate for office, you should join the other men of the same class, and organize for protection. About so often every man must make an effort or his plain fights as a citizen will be taken from him.

## HELP WANTED IN DOTHAN.

And Furnished by the Help of Dothan People.

Those who suffer with kidney backache, urinary ills or any little kidney or bladder disorder, want kidney help. Who can better advise than some Dothan resident, who has also suffered but has had relief Dothan people recommend Doan's Kidney Pills. Here's one case where there are many others.

Mrs. William Rhodes, 210 W. Washington St., Dothan, Ala. says: "Doan's Kidney Pills are as good as advertised. I am glad to praise them again as I did some years ago. They are the best remedy I ever used. I was nervous and dizzy and my back ached. I couldn't sleep well and was always tired in the morning. Doan's Kidney Pills, procured from McCallum's Drug Store, made me strong and well."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no other.

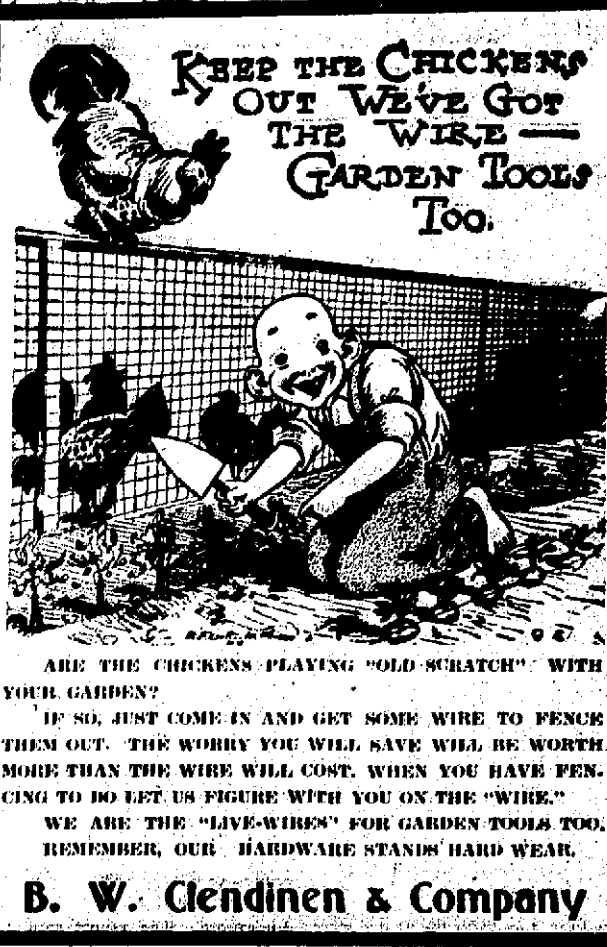

We talk of the advancement of liberty. In portions of Africa, controlled by the Germans, the newspapers print advertisements offering to sell and buy negro slaves. "Compulsory recruiting" of native labor for plantations, is permitted under the German law; which means the old-fashioned traffic in slaves formerly practiced by the Arabs and Portuguese. But not much is said about it by the Civilized Powers. The Germans have an immense and capable army, and are as easily offended by criticism of the Fatherland as Catholics are offended by criticism of their church.

Richmond, Pa. — "When I started taking Lydia E. Pinkham's Vegetable Compound I was in a dreadfully rundown state of health, had internal troubles, and was so extremely nervous and prostrated that if I had given in to my feelings I would have been in bed. As it was I had hardly strength at times to be on my feet and what I did do was by a great effort. I could not sleep at night and of course felt very bad in the morning, and had a steady headache."

"After taking the second bottle I noticed that the headache was not so bad, I rested better, and my nerves were stronger. I continued its use until it made a new woman of me, and now I can hardly realize that I am able to do so much as I do. Whenever I know any woman in need of a good medicine I highly praise Lydia E. ### EGGS

An egg consists of the shell, membrane which lies next to the shell, white and yolk, the yolk being balanced in the white by means of two spiral springs.

Eggs furnish a valuable, concentrated protein food and are a useful substitute for meat. They are deficient in but one of five food principles—protein, carbohydrate, fat, vitamins and minerals. From this fact it may be seen that they should be taken in combination with some starchy food, which furnishes necessary bulk for stomach.

egg is nearly pure albumen. The yolk is of much greater nutritive value than the white. It contains lime, calcium, iron and phosphorus in organic combinations, which render it readily absorbed and utilized by the body.

Eggs are expensive, even at 25c a dozen, but being so valuable a form of food, they should be used as frequently as possible. They enter into the composition of many dishes to which they are indispensable.

Eggs for the sick should be as fresh as possible. If received from the market, packed in sawdust, they should be removed at once, as they

quickly absorb odor from the wood.

There are but few people with whom eggs disagree. If they cannot be taken it is usually due to the presence of leucithin, a nitrogenous, fatty substance found in the yolk, which readily decomposes and forms acids. Convalescents, anemics and consumptives can take from six to eight eggs daily, for an extended period with most satisfactory results, as they yield a large amount of nourishment for their bulk. For forced feeding they are valuable as they can be easily administered and combined with milk or broth.

Eggs deteriorate quickly in value unless air is excluded which prevents evaporating of water through the eggshell. By evaporation of water, air rushes in causing decomposition. Various gases are given off—principally sulphuretted hydrogen which may cause gastric and intestinal disorders.

Advantages of use in sick room:

1. Nutritive value
2. Taste good (if fresh.)
3. Easily digested (if properly cooked.)
4. Free from heating.
5. Contains practically no extractives.
6. Hold lime, calcium, iron and phosphorus in organic combinations. Minerals in organic combination are more easily absorbed.
7. Fat in form of emulsion.

Eggs are easily digested and absorbed, 97 per cent of protein is absorbed and 94 per cent of fat. A raw egg, on account of its blandness does not stimulate the flow of gastric juice, consequently does not leave stomach in so short a time as a "soft cooked egg." The digestibility of the white of an egg is increased by heating. The walls of the cells are ruptured by heating, this setting free albumen, which is more quickly acted upon by gastric juice.

Soft Cooked Eggs.  
Drop eggs with a spoon in boiling

water to cover. Pull to back of range (not boil) and let stand 10 minutes. Eggs will then be properly soft cooked.

### Hard Cooked Eggs

Same process for soft cooked except let stand 45 minutes instead of 10 minutes.

### "THE GREATEST KIDNEY REMEDY ON EARTH," SAYS A GRATEFUL WOMAN

I want to tell you how much good your Swamp-Root did me. About four years ago, I suffered from what the doctors called bacula and for two years of that time, I endured what no tongue can tell. I also had inflammation of the bladder and I tried doctors medicines without receiving any help. Someone told me about Dr. Kilmer's Swamp-Root.

After giving it a thorough trial, I received relief, so kept on using it and today I am a strong and well woman. If I ever feel badly or out of sorts, I take Swamp-Root and it always straightens me out. I honestly believe that this medicine would cure all troubles you recommend it for and it is a pleasure for me to send my testimony and photograph to you. I think Dr. Kilmer's Swamp-Root is one of the greatest medicines on earth.

**YOU** see here one of our popular styles. A very "Frenchy" pattern that appeals to young women. Also the Mary Jane—or baby doll pump—which shows another extreme. The styles this year are probably the most charming that have ever been brought out. The very choicest models can be seen here and are priced in a range to suit all purses. Will you look into our windows?
